Sir:

This Supplemental Amendment is filed after a telephonic examiner interview on August 27, 2010 and as to supplement the Amendment that has been filed with the USPTO on August 24, 2010.

Listing of Claims begin on page 3 of this paper.

In the examiner interview of August 27, 2010, the examiner has agreed that the claim 1 as amended, which is shown in the Listing of Claims in this paper, overcomes the standing rejections over the cited US 2003/0117356 (Moon).

Please note the new claim 23, the limitations of which came from claim 1. The applicant believes that Moon has been the main reference cited by the examiner, and the applicant and also believes that the examiner has agreed during the interview that claim 1 as now amended without these limitations still overcomes the standing rejections over the cited Moon reference.
